

Program Structure

Courses	Day	Date	Modules	SubTopics
			G	etting started with Git basics
				What is version control and why it is
				essential?
				Centralized vs. Distributed version control
			Introduction to	systems. Git Basics, Branching and Merging working
			Introduction to Version Control	with Remote Repositories
			version control	What is CI/CD and why is it important?
				Key concepts: Build, Test, Release, Deploy.
			Implementing	Tools for CI/CD: Jenkins, GitHub Actions,
			CI/CD	GitLab CI, etc.
			Introduc	tion & Basic Programming Concepts
				Installation of Visual Studio 2019
				Introduction to .NET framework
			Catting at anti-d	.NET framework architecture
	5 4	24 1 1 2225	Getting started with .NET platform	Common type system
Introduction to .Net & C# & OOPS using C# & Data Handling using C#	Day 1	21 July 2025	with the places of	Common language specification
				Common language runtime
				Base class library
			Types in C#	Introduction to Classes
				Reading and Writing in the console
				Assembly
				Private
				Shared
				Types
				Value type and Reference type
				Boxing and Unboxing
				Strings
				String Builder
				Difference between String and StringBuilder
				Nullable types
				Core C# Programming
				Array
			Arrays in C#	Single array
			Arrays in C#	Multi-dimension
	Day 2	22 July 2025		Jagged array
				Loops and Statement
			Looping Construct	IF statement
			Looping Construct	For loop
				Foreach loop

			Switch statement		
			While loop		
			Do-while loop		
		Getting St	tarted with properties and functions		
		Access modifiers			
			Private		
		Access modifiers in	Public		
	C#	Protected			
			Internal		
			Protected internal		
Day 3 23 July 2025	23 July 2025		Methods		
			Void method		
			With parameter		
			Return type method		
		Methods in C#	Static method		
			Instance method		
			Namespaces		
			Unit testing		
		Getting start	ed with Inheritance for code reusability		
		Object Oriented Concept			
			Inheritance		
			Single		
		Inheritance in	Multilevel		
		C#.NET	Multiple (using Interface)		
			Hierarchical		
			Hybrid		
Day 4 2		OOPs no	rinciples ie Polymorphism in Action		
		0013 p.	Polymorphism		
			Method override		
	24 July 2025	Polymorphism in	Method overload		
		C#.NET	Encapsulation		
			Abstraction		
			Properties		
			Static		
		Object types in	Static class		
		C#.NET	Static method		
			Static constructor		
			Structs		
			Interface		
			Abstract		
		User define types	Enumeration		
		in C#.NET	Difference between Interface and Abstract		
			Problem with multiple class inheritance		
			Solution for multiple class inheritance using		

				Exception handling
				File Handling in C#.NET
				File I/O
				Create
			File Handling in	Write
			C#.NET	Append
	;			Delete
	;			Сору
	;			Collections
				Non generic
				Array list
	Day 5	25 July 2025		Hash table
				Sorted list
			Collections in	Stack
			C#.NET: Generic	Queue
			and Non Generic	Generic
				List
				Dictionary
				Sorted list
				Stack
				Queue
				Advance topics
				Introduction to Exception Handling
			Exception Handling in C#	Types of Exceptions in C#, The try, catch,
				finally Blocks
				Common Exception Classes
				Creating Custom Exceptions Exception Filters (C# 6.0 and Later)
				Exception Finers (C# 6.0 and Later) Exception Handling Best Practices
		26 July 2025	Latest C# 7.0 features	Extension Methods
				Tuples and Deconstruction, Pattern
Advanced C# & introduction to .Net				Matching, Local Functions,Out Variables, Ref
				Locals and Returns, Discards (_) & Expression-
				bodied Members
	Day 6			Nullable Reference Types, Async Streams, Ranges and Indices, Switch Expressions,
			C# 8.0 features	Default Interface Methods, Pattern Matching
			0 0.0 10000	Enhancements, Using Declarations &
				Readonly Members
				Importance of searching in data structures
				Types of searching algorithms (Linear vs
				Binary) Types of sorting algorithms (Comparison-
			Searching and	based vs Non-comparison-based)
			Sorting Data	Bubble Sort, Selection Sort , Insertion Sort
			Structure	Efficiency comparison among Bubble,
				Selection, and Insertion Sort
				Real-world scenarios for each sorting
				algorithm

				Indexer
		Indexers and	Difference between index and properties	
			Attributes in C#	Attributes
				Delegates & Reflection
			Delegates in	Delegates
			C#.NET	Single cast
				Multi cast
				Anonymous method
				Lambda expression
				Func
				Action
				Predicate
	Day 7	28 July 2025		Events
	,	,		INtroduction to Reflection and its practical
			Standard C#	use
			Features	Generics
				Generic class
				Generic field
				Generic method
				Advantage of generics
				Threading
				Ref and Out keyword
				Async & Await
			Unit Te	esting & Test-Driven Development
				_
				What is unit testing?
			Introduction to	What is unit testing? Benefits of unit testing
			Introduction to Unit Testing	
				Benefits of unit testing
			Unit Testing Introduction to	Benefits of unit testing Basic concepts and terminology
			Unit Testing Introduction to Testing	Benefits of unit testing Basic concepts and terminology Testing Frameworks Introduction to popular testing frameworks
			Unit Testing Introduction to	Benefits of unit testing Basic concepts and terminology Testing Frameworks Introduction to popular testing frameworks (NUnit, MSTest, XTest)
			Unit Testing Introduction to Testing	Benefits of unit testing Basic concepts and terminology Testing Frameworks Introduction to popular testing frameworks (NUnit, MSTest, XTest) Setting up a testing framework in a project
			Unit Testing Introduction to Testing Frameworks	Benefits of unit testing Basic concepts and terminology Testing Frameworks Introduction to popular testing frameworks (NUnit, MSTest, XTest) Setting up a testing framework in a project Understanding test projects and test classes Anatomy of a unit test
	Day 8	29 July 2025	Unit Testing Introduction to Testing	Benefits of unit testing Basic concepts and terminology Testing Frameworks Introduction to popular testing frameworks (NUnit, MSTest, XTest) Setting up a testing framework in a project Understanding test projects and test classes Anatomy of a unit test Creating test methods
	Day 8	29 July 2025	Unit Testing Introduction to Testing Frameworks	Benefits of unit testing Basic concepts and terminology Testing Frameworks Introduction to popular testing frameworks (NUnit, MSTest, XTest) Setting up a testing framework in a project Understanding test projects and test classes Anatomy of a unit test Creating test methods Organizing test classes and test suites
	Day 8	29 July 2025	Unit Testing Introduction to Testing Frameworks Writing Test Cases	Benefits of unit testing Basic concepts and terminology Testing Frameworks Introduction to popular testing frameworks (NUnit, MSTest, XTest) Setting up a testing framework in a project Understanding test projects and test classes Anatomy of a unit test Creating test methods Organizing test classes and test suites Using assertions to validate test results
	Day 8	29 July 2025	Unit Testing Introduction to Testing Frameworks	Benefits of unit testing Basic concepts and terminology Testing Frameworks Introduction to popular testing frameworks (NUnit, MSTest, XTest) Setting up a testing framework in a project Understanding test projects and test classes Anatomy of a unit test Creating test methods Organizing test classes and test suites Using assertions to validate test results Common assertion methods (e.g.,
	Day 8	29 July 2025	Unit Testing Introduction to Testing Frameworks Writing Test Cases Assertions and Test	Benefits of unit testing Basic concepts and terminology Testing Frameworks Introduction to popular testing frameworks (NUnit, MSTest, XTest) Setting up a testing framework in a project Understanding test projects and test classes Anatomy of a unit test Creating test methods Organizing test classes and test suites Using assertions to validate test results
	Day 8	29 July 2025	Unit Testing Introduction to Testing Frameworks Writing Test Cases Assertions and Test	Benefits of unit testing Basic concepts and terminology Testing Frameworks Introduction to popular testing frameworks (NUnit, MSTest, XTest) Setting up a testing framework in a project Understanding test projects and test classes Anatomy of a unit test Creating test methods Organizing test classes and test suites Using assertions to validate test results Common assertion methods (e.g., Assert.AreEqual, Assert.IsTrue)
	Day 8	29 July 2025	Introduction to Testing Frameworks Writing Test Cases Assertions and Test Data	Benefits of unit testing Basic concepts and terminology Testing Frameworks Introduction to popular testing frameworks (NUnit, MSTest, XTest) Setting up a testing framework in a project Understanding test projects and test classes Anatomy of a unit test Creating test methods Organizing test classes and test suites Using assertions to validate test results Common assertion methods (e.g., Assert.AreEqual, Assert.IsTrue) Test data setup and teardown
	Day 8	29 July 2025	Unit Testing Introduction to Testing Frameworks Writing Test Cases Assertions and Test	Benefits of unit testing Basic concepts and terminology Testing Frameworks Introduction to popular testing frameworks (NUnit, MSTest, XTest) Setting up a testing framework in a project Understanding test projects and test classes Anatomy of a unit test Creating test methods Organizing test classes and test suites Using assertions to validate test results Common assertion methods (e.g., Assert.AreEqual, Assert.IsTrue) Test data setup and teardown Test-driven development (TDD) Testing different scenarios (positive, negative, edge cases)
	Day 8	29 July 2025	Introduction to Testing Frameworks Writing Test Cases Assertions and Test Data	Benefits of unit testing Basic concepts and terminology Testing Frameworks Introduction to popular testing frameworks (NUnit, MSTest, XTest) Setting up a testing framework in a project Understanding test projects and test classes Anatomy of a unit test Creating test methods Organizing test classes and test suites Using assertions to validate test results Common assertion methods (e.g., Assert.AreEqual, Assert.IsTrue) Test data setup and teardown Test-driven development (TDD) Testing different scenarios (positive,
	Day 8	29 July 2025	Introduction to Testing Frameworks Writing Test Cases Assertions and Test Data Testing Techniques	Benefits of unit testing Basic concepts and terminology Testing Frameworks Introduction to popular testing frameworks (NUnit, MSTest, XTest) Setting up a testing framework in a project Understanding test projects and test classes Anatomy of a unit test Creating test methods Organizing test classes and test suites Using assertions to validate test results Common assertion methods (e.g., Assert.AreEqual, Assert.IsTrue) Test data setup and teardown Test-driven development (TDD) Testing different scenarios (positive, negative, edge cases) Mocking dependencies using frameworks like

]			Handling failures and debugging failing tests
				.NET Core
				DOT NET CORE
				What is .NET Core
				Benefits of .NET core
			Introduction to .NET Core	What is new in .NET Core
			.NET COTE	.NET Core vs .NET Framework
				First .NET Core Application.
				Building .NET Core Applications
				Understanding middleware in ASP.NET Core
			Middleware and	Configuring and using middleware components
			Static Files	Serving static files (HTML, CSS, JavaScript)
				Security considerations with static files
				Overview of Razor Pages architecture
			Introduction to	Advantages of Razor Pages over traditional MVC
			Razor Pages	Creating and configuring Razor Pages in a project
	Day 9	30 July 2025		Folder structure and naming conventions
			Razor Syntax and Page Model	Razor syntax basics and directives
				Mixing HTML and server-side code
				Understanding the PageModel class
				Property binding and handling requests
				.NET Security & Reliability
				Understanding security in .NET applications
			.NET Security & Reliability	Common security practices (authentication, authorization, encryption)
				Secure coding practices
				Using .NET libraries for encryption, secure communication, and secure storage
				Building Reliable Applications
				Designing for reliability
				Exception handling strategies
				Error Handling & Logging
				Implementing error handling best practices
				Logging errors and monitoring application health
			SOL	ID Principles & Design Patterns
				Introduction to SOLID Principles
			SOLID Principles	Overview of SOLID principles (SRP, OCP, LSP, ISP, DIP)
Advanced C# &	Day 10	31 July 2025	30LID FIIIICIPIES	Practical Application of SOLID
introduction to .Net	,	0_00., 2020		Refactoring code to adhere to SOLID
				principles
				1
			Design Patterns	Introduction to Design Patterns Understanding the importance of design

				Overview of common design patterns (Creational, Structural, Behavioral)
			Introductio	n, Basic Concepts, and DML Commands
			Introduction to	Installation of SQL Server Management Studio
			Databases	Introduction to basic database concepts.
				Advantage of DBMS
				Introduction to RDBMS
				Creating Tables
				Relationship between tables.
			Keys, Operators &	Primary keys, Foreign keys, Unique keys
			DML Commands	SQL operators (Arithmetic, Comparison, Logical)
				DML Commands
				CRUD operations
	Day 11	01 August 2025	Milestor	ne Assessment 1 (C# Fundamentals)
			D	DDL, DCL, and TCL Commands
				SQL commands
		02 August 2025	SQL Fundamentals	Constraints
SQI & microsoft SQI server	Day 12			Primary key
				Foreign key
				Types of contraints - Not null, Check, Unique.
				DDL Commands
				DCL & TCL Commands
				Grant & Revoke, Commit & Rollback
			Advar	nced Queries, Functions, and Joins
			Function in SQL Server	Functions
				Built-in Functions
				Scalar functions (e.g., LEN, ROUND, GETDATE)
				Aggregate functions (e.g., SUM, AVG, COUNT)
				User-defined Functions
				Aggregate functions
				Joins
				Inner join
				Left join
	Day 13	04 August 2025		Right join
			Working with	Self-join
			Queries	Full outer join
				Cross join
				Set operators
				Union
				Intersect
				Minus
			Stored Procedures	Stored procedure
			and Triggers	Input and Output parameter
			. 56	If Else

			I	Transaction
				Error Handling
				Functions
				Scalar function
				Table value function
				Single table value
				Multi table statement
				Difference between SP and function.
				Call functions in SP.
			Advar	nced Queries, Functions, and Joins
			Auvai	Views
			Working with	Indexing
			Views & Indexing	Clustered index
				Non-clustered index
	Day 14	05 August 2025		Unique index
				Normalizations
			Normalizations	First normal form
				Second normal form
				Third normal form
				Benefits of normalization and when to apply it
		06 August 2025	Mongo DB	Introduction to NoSQL
				Introduction to MongoDB
				MongoDB CRUD Operations
	Day 15			MongoDB Data Modeling, Indexing and Query Optimization
				Introduction to MongoDB Atlas
				Aggregation Framework in MongoDB
				HTML /CSS /JavaScript
				Basic Structure of an HTML Page
				Various Tags and Attributes
HTML CSS JS (Inline and Block Elements
				Forms
				Semantic elements
	Day 16 &			HTML 5 Features
	Day 17			Paper based Layout
				Hero unit
	(Focus	07 August 2025	HTML and CSS	Audio Video Players
	More on Java			Semantic Markup
	Script)			Geo Location, A11Y (Accessibility)
				Intro to CSS CSS Proportion and their syntages
				CSS Properties and their syntaxes
				Various Selectors in CSS and their preference orders
				Inline, Internal and External Styling
				Box Model

	7			css 3
				Advance Unites like rem, em and vh vw
				New elements added like Round Corners
				Working with flex box
				Working with Bootstrap
				Cards, Tables, and Lists
			Bootstrap	Develop a static webpage,Forms and Form Validations
				Navs and Navbar, Pagination and Progress
				Navigation and Pagination
				Basics of JavaScript - Introduction to JavaScript, Data type, variables, Functions and scope
			Basics of JavaScript	Type Conversions, Basic Operators
				Branching, Conditional statements and Looping Statements, Functions, Arrays and
				Strings Modern JavaScript (ES6): Javascript - Fetch API , Arrow functions, Template literals,
				Destructuring, Spread and rest operators Date and Time Objects, Closures, Promises and Async Programming, Closures and
		08 August 2025	Advanced Java	DOM Manipulation: DOM Objects, Accessing elements in the DOM, Modifying HTML
			Script	content, Adding and removing elements Functional Programming, Error Handlingclient side scripting
				JSON, JSON - Objects, arrays etc, JSON-Ajax Advanced DOM Manipulation,
				jQuery Plugins, Event Delegation, Ajax and Deferred Objects, Optimization and Performance
	Day 18	09 August 2025	Milesto	ne Assessment 2 (SQL Fundamentals)
	54, 15	00 7 10 20 20 20 20 20 20 20 20 20 20 20 20 20		SPA & Working with NPM
				Differences between SPA and traditional web
			Understanding the	applications
			Need of SPA (Single Page	applications Advantages of SPA in terms of performance and user experience
			Need of SPA	Advantages of SPA in terms of performance
Getting started with React FrontEnd	Day 19	11 August 2025	Need of SPA (Single Page	Advantages of SPA in terms of performance and user experience
_	Day 19	11 August 2025	Need of SPA (Single Page	Advantages of SPA in terms of performance and user experience Common use cases for SPA development
_	Day 19	11 August 2025	Need of SPA (Single Page	Advantages of SPA in terms of performance and user experience Common use cases for SPA development Introduction to NPM
=	Day 19	11 August 2025	Need of SPA (Single Page Application):	Advantages of SPA in terms of performance and user experience Common use cases for SPA development Introduction to NPM Initializing a project with npm init. Installing, updating, and removing packages:

Overview of Razor Pages architecture	
ASP .Net Core Day 24 18 August 2025 Introduction to MVC	
Razor Pages Creating and configuring Razor Pages project	s ional
Folder structure and naming convent	s ional in a
Razor syntax basics and directives	s ional in a
Razor Syntax and Mixing HTML and server-side code	s ional in a
Page Model Understanding the PageModel class	s ional in a
Property binding and handling reques Advanced Queries, Functions, and Joins	ional in a ons

			Model binding in Razor Pages
		Deep Dive into	Binding complex types and collections
		Razor Pages	Overview of different view types in Razor
			Pages Creating and using partial views for
		Partial Views and	reusability
		Routing in Razor	Implementing and configuring routing in
		Pages	Razor Pages
		_	Customizing routes and route parameters
			Understanding the MVC pattern in ASP.NET
			Core
		MVC Overview and	Roles of Models, Views, and Controllers
		Model Binding	Setting up an MVC project
			Model binding in MVC: simple and complex types
		V	alidation in MVC applications
			Introduction to TagHelpers in ASP.NET Core
		TagHelpers and	Common TagHelpers for forms, links, etc.
		HTML Helper	Using HTML Helper classes to generate HTML
		Classes	elements
			Custom TagHelpers and HTML Helpers
		Validations	Importance of data validation in web applications
Day	25 19 August 2025	Overview and Data Annotations	Using Data Annotations for server-side validation
	_	7	Common validation attributes and scenarios
		V	alidation in MVC application
			Implementing server-side validation in MVC
			Setting up client-side validation with
		Server-Side and	unobtrusive JavaScript
		Client-Side	Synchronizing server and client-side
		Validation	validations
			Build an MVC application incorporating cookies, sessions, and filters.
			Routing in MVC Application
			Implementing complex routing scenarios
		Advanced	Dynamic routing based on conditions
		Techniques	
Day	26 20 August 2025		Using custom route constraints
Day	20 August 2023		MVC filters
		A.I. 1.0.10	Creating filters with dependencies
		Advanced MVC Filters	Implementing filters for cross-cutting concerns (logging, error handling)
		riiteis	Testing and debugging custom filters
			Sample MVC Application
			Develop a full-featured ASP.NET Core
		Building a Full	application using Razor Pages and MVC
Day	27 21 August 2025	ASP.NET Core	Implement custom validations, filters,
		Application	routing, and session management
			Focus on best practices and design patterns
Day	22 August 2025		Milestone - 3 (React UI)

			ASP.Net Co	re Advanced & Secure Coding Practices
				Importance of input validation to prevent
			Security	attacks (e.g., SQL Injection, XSS) Best practices for input validation in ASP.NET
			Fundamentals and	Core
			Authentication	Output encoding to protect against XSS
				attacks
				Overview of ASP.NET Core authentication and
	Day 29	23 August 2025	Authentication and	authorization
	Duy 23	23 / (agast 2023	Authorization in	Implementing role-based and claims-based
			ASP.NET Core	authorization
				Configuring authentication schemes (e.g., cookies, JWT)
				Configuring secure forms authentication and
				authorization
			Securing MVC	Protecting against common web
			Applications	vulnerabilities (CSRF, XSS, etc.)
Asp.Net Core Advanced				Implementing secure session management
			,	Advanced Security Practices
				Understanding JSON Web Tokens (JWT) and
	Day 30	25 August 2025	Authentication using JWT Token and OAuth	their use in authentication
				Implementing JWT-based authentication in
				ASP.NET Core
				Overview of OAuth and its role in securing applications
			Secure Communication	Configuring HTTPS in ASP.NET Core
				Implementing secure communication using
				TLS/SSL
				Protecting sensitive data transmission
			Database Security & Security Practices in SDLC	Best practices for securing databases (e.g.,
				encryption, secure connections)
				Secure coding practices during the Software
				Development Life Cycle (SDLC) Conducting security assessments and code
				reviews
			Res	st & Microservice Architecture
				Overview of RESTful services and principles
Web API & Microservices			Introduction to	RESTful API design best practices in ASP.NET
			REST and	Core
			Architecture	Understanding statelessness and resource-
				based routing
			Web Debugging	Using Postman for API testing and debugging
	Day 31	26 August 2025	Tools (Postman,	Monitoring and troubleshooting HTTP
		_	Fiddler)	requests with Fiddler
				Practical tips for API debugging
			Associations LIBI	Implementing associations in Web API (one-to-many, many-to-many)
			Associations, URI Routing, and	Configuring URI routing for RESTful endpoints
			Attribute Routing	Customizing routes with attribute routing in
				ASP.NET Core
				Introduction to microservices architecture

			Microservices Architecture and Implementation Implementing Microservices with Ocelot Gateway Introduction to RestTemplate	Comparing microservices with monolithic architecture Benefits and challenges of microservices Introduction to API Gateway and its role in microservices Implementing Ocelot as an API Gateway in ASP.NET Core Configuring routing, aggregation, and security in Ocelot Overview of RestTemplate for HTTP communication between microservices Best practices for inter-service communication in a microservices environment Error handling and fault tolerance strategies
				in microservices Core Security
			Input Validation	Client-side vs server-side validation DataAnnotations (Required, StringLength) Custom validation attributes FluentValidation for complex rules
Application testing and Integration	Day 32 28 August 2025		Output Encoding	HTML encoding (AntiXSS Library) JavaScript encoding URL encoding Context-aware encoding strategies
			Authentication	Cookie-based auth JWT structure (Header/Payload/Signature) Refresh token rotation OAuth 2.0 flows (PKCE, Client Credentials)
			Secure MVC	CSRF tokens (AntiForgery) Content Security Policy (CSP) Secure headers (XSS-Protection, HSTS)
		28 August 2025		API & Microservices
			REST Architecture	Richardson Maturity Model Resource naming conventions Status code semantics Hypermedia (HATEOAS)
			API Tools	Postman collections/environments Fiddler for traffic inspection Swagger/OpenAPI documentation
		Microservices	Gateway routing (Ocelot) Service discovery Circuit breaker pattern (Polly) RestTemplate retry policies	
				Full-Stack Security
			Frontend Security	TypeScript types/interfaces JS closures/IIFEs for encapsulation DOM XSS prevention Safe DOM manipulation

12

Proprietary content. ©Great Learning. All Rights Reserved. Unauthorized use or distribution prohibited.

			Database Security	Parameterized queries ORM security (EF Core) Encryption at rest (Always Encrypted) Row-level security	
			SDLC Practices	Threat modeling (STRIDE) SAST tools (SonarQube) Secure code reviews Incident response	
				Fundamentals of Power Platform	
	Day 33	29 August 2025		Overview of Power Platform	
			Introduction to Power Platform	Components of Power Platform	
				Introduction to Power BI & Power Apps	
				Types of Power Apps	
			Automating Processes with	Building a Simple App	
				Introduction to Power Automate	
				Types of Flows	
			Introduction to Power Virtual Agents	Common Use Cases	
				Overview of Power Virtual Agents	
				Building a Basic Chatbot	
				How Power Platform Components Work	
				Together	
				Business Use Cases	
	Day 35	30 August 2025	Milestone - 4 (Dotnet Core)		
Capstone	Day 34 - 41	29th Aug - 4th Sep	Capstone Project (5 days)		
		05 September 2025	Final As	ssessment - Only MCQ+case study
